MAY 17 1999

From the desk of
M. Boris Rotman
Professor of Medical Science

5/12/99

Dear Josh,

You may like to know that I thought of a practical application to the "magic" lysis of *E. coli* after sonication. One of these days I plan to test the idea. It has been only 42 years since the original publication!

Greetings,
B.

I remember it well! Tell me about your new idea!
I hope we could fuse them.
Thank you for the permission.
JB.
